MUSIC & CULTURE

Tony S. Kay is a multicultural DJ. He grew up in Paris, but fell in love with hip-hop and R&B during his vacations in Los Angeles while visiting his father. That gave him the opportunity to discover about American and French music, but also open his mind to many different types of genres.

Tony S. Kay has the ability to navigate and transition between different musical genres from hip-hop and R&B, from Future Beats to Afro Beats, but also Afro House to adapt his music to any type of event that's focused on the audience and the energy wanted. As a former dancer, musicality is very important to keep the motion to the climax.
